Staff provided an update on: the status of construction for the Public Works stream restoration; FEMA funded home elevations on Lorraine Street; the culmination of work with the Center for Neighborhood Technology; a planned riparian buffer urban forestry grant application for Anderson Park; a scheduled audit of the Town's NPDES stormwater permit; and posting of a new stormwater staff position.

#### **Outreach**

Staff provided an update on recent and planned outreach activities, including sharing some of the graphics and outreach products of the recently completed UNC internship and a preliminary draft of a "Homeowner's Watershed Manual". The SWAC provided feedback, including the need for translating the materials for non-English speaking residents (especially for targeted audiences) and a few ideas for clarifying content and user friendly access.
